Intelligent Material Flow

DriveTag – Your Key to Intelligent Material Flow

This DriveBenefits module makes it easier for you to correctly sort products and saves precious time in the receiving department, in the warehouse and during assembly processes. The functional labels with printed barcodes are placed on products and packages, making them easy to identify.

Simply outstanding
– Quick and efficient sorting of products using a barcode scanner
– Simple product identification throughout the entire product life cycle
– Requires less time and results in fewer errors
– Automated goods receiving
– Quick identification of unit specifications using the SEW app and smartphone
